## 2020 Congressional Voting Record

*A Tale of Two Chambers...Again* --- While Democrats in the House continued introducing, debating, and passing positive legislation to move our nation forward, Republicans dug in their heels on obstruction and Mitch McConnell's obsession with confirming extremists.

With our nation reeling from the impacts of a global pandemic, the Trump Administration and Congress needed to set aside partisan politics and lead. While that did happen in several relief packages, the sloppy and misinformed response from Trump and his army of accomplices in the Republican party made those efforts confusing for the public and continues to lengthen the health and economic recovery today.

As you can see from the votes and scores, Congress remains divided along party and ideological lines in an increasingly fruitless way.

While the Democratic sweep in the 2020 elections will and has brought a more positive agenda, the politics of obstruction and manufactured grievance continue.

We must protect and expand democracy through the protection of voting rights, we must not become complacent in shining light on the dangers of the authoritarian tendencies of Trumpism, and we must enact relief for health, human services, and the economy to move into our new future. Do not let frustration or fatigue keep you silent in this moment. Vote! Take Action!

### **Notes:**

This voting record is offered only as a guide in judging the legislative performance of Members of Congress, and has several inherent limitations. It does not measure a legislator's work in committees. It does not reflect the failure of Congress to deal with major issues, or the individual's degree of responsibility. Nor does it reflect a legislator's lifetime of work.

The methodology of the ADA Voting Record calls for Members who miss a vote, for whatever reason, to be penalized in their final score. Therefore, a Member who agreed with ADA's position on 19 votes but was absent on the 20th would receive a score of 95%. Several Members have special circumstances to consider in viewing their scores. The Speaker of the House often does not vote. Members that leave office due to death, appointment to other position, or early retirement will have no or an incomplete score. Their replacements, if any, fall into the same category. Additionally, Members that may have run for another office like President may have missed an unordinary number of votes altering their potential score.

## Key:

- + Voted with ADA's position
- Voted against ADA's position
- P Voted Present
- ? Did Not Vote
- S Speaker's Privilege
- I Ineligible or not in office
